

Inviting additional users to access your CSP account

1. Once you are logged into the CSP, click **Setup**.
2. Click **Invite User** in the Users section.
3. Complete the required information and click **Send Invitation**. You can control the permissions and customers that the invited user has by checking/unchecking the options under Permissions and Customers.
4. Once the invited user registers, they will be able to log into the CSP using their own log in credentials.

If you have questions throughout this process, please contact coupasupplierenablement@kantar.com
